This Form ADV Part 2A (“Disclosure Brochure”) provides information about the qualifications and business practices of Wealthcare Capital Management LLC (“WCM” or the “Advisor”). If you have any questions about the contents of this Disclosure Brochure, please contact the Advisor at (804) 644-4711 or by email at compliance@wealthcarecapital.com.

WCM is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). The information in this Disclosure Brochure has not been approved or verified by the SEC or by any state securities authority. Registration of an investment advisor does not imply any specific level of skill or training. This Disclosure Brochure provides information about WCM to assist you in determining whether to retain the Advisor.

Additional information about WCM and its Advisory Persons is available on the SEC’s website at www.adviserinfo.sec.gov by searching with the Advisor’s firm name or CRD# 111119.

Date: March 24, 2026

Item 2 – Material Changes

Form ADV 2 is divided into two parts: Part 2A (the "Disclosure Brochure") and Part 2B (the "Brochure Supplement"). The Disclosure Brochure provides information about a variety of topics relating to an Advisor's business practices and conflicts of interest. The Brochure Supplement provides information about Advisory Persons of WCM.

WCM believes that communication and transparency are the foundation of its relationship with clients and will continually strive to provide you with complete and accurate information at all times. WCM encourages all current and prospective clients to read this Disclosure Brochure and discuss any questions you may have with the Advisor.

Material Changes

The following material change has been made to this Disclosure Brochure since the last annual amendment filing on 3/28/2025:

- The Advisor has amended Item 4 to reflect a new principal owner of the firm. Please see Item 4 for more details.
- The Advisor has amended Item 10 to reflect an affiliation with Sammons Financial Network, LLC. Please see Item 10 for more details.

Future Changes

From time to time, the Advisor may amend this Disclosure Brochure to reflect changes in business practices, changes in regulations or routine annual updates as required by the securities regulators. This complete Disclosure Brochure or a Summary of Material Changes shall be provided to you annually and if a material change occurs.

At any time, you may view the current Disclosure Brochure on-line at the SEC's Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or CRD# 111119. You may also request a copy of this Disclosure Brochure at any time, by contacting the Advisor at (804) 644-4711 or by email at compliance@wealthcarecapital.com.

Item 4 – Advisory Business

A. FIRM INFORMATION

Wealthcare Capital Management LLC (“WCM” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”). WCM is a limited liability company (“LLC”) organized in the State of Delaware and is headquartered in Richmond, Virginia. WCM is a wholly-owned subsidiary of Wealthcare Parent Holdings LLC (which is principally owned by Sammons Financial Group Wealth Management Holdings, LLC). WCM is operated by Matthew T. Regan (President), Ronald E. Madey (Chief Investment Officer), Justin DuBrueler (Chief Financial Officer) and James J. Krause (Chief Compliance Officer). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by WCM. For additional information about our ownership structure, please see our Form ADV Part 1A, Schedules A and B.

WCM offers services through its Advisory Persons. Advisory Persons may have their own legal business entities whose trade names and logos are used for marketing purposes and may appear on marketing materials and/or Client statements. The Client should understand that the businesses are legal entities of the Advisory Person and not of WCM. The Advisory Persons are under the supervision of WCM, and the advisory services of Advisory Persons are provided through WCM. Advisory Persons provide services and charge fees based in accordance with the descriptions detailed in this Disclosure Brochure and the terms of the Client agreement. However, the exact service and fees charged to the Client are dependent upon the Advisory Person that is working with the Client. Advisory Persons are appropriately licensed and authorized to provide advisory services on behalf of WCM.

B. ADVISORY SERVICES OFFERED

WCM provides investment advisory, portfolio management and related services to individuals, high net worth individuals, trusts, estates, retirement plans, business entities, including other investment advisors, charitable institutions, endowments and foundations (each hereinafter a “Client” or collectively as “Clients”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. WCM’s fiduciary commitment is further described in the Advisor’s Code of Ethics. For more information regarding the Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Wealth Management Services

WCM provides tailored investment advisory solutions to its Clients. This is achieved through personal Client contact and interaction while providing discretionary or non-discretionary investment management over Client portfolios and a broad range of comprehensive financial planning. Investment Management and Financial Planning services are also offered as standalone services. These services are described below.

Investment Management Services

WCM provides customized investment advisory solutions for its Clients. This is achieved through continuous personal Client contact and interaction while providing discretionary and/or non-discretionary investment management and related advisory services. WCM works with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to create an investment strategy. WCM will then design a portfolio utilizing the Advisor’s internal investment strategies, alternative investments, or independent managers as described below.

WCM will place Client assets into one of WCM’s models consisting of mutual funds, ETFs and/or alternative investments. WCM also believes that certain Clients may benefit from individual stock and fixed

income portfolio management services and strategies. These strategies would assist Clients in meeting their market exposure, risk management, tax management and return objectives in a cost-effective manner using systematic strategies. WCM will collaborate with independent manager and Clients to design and implement customized solutions to accommodate personal preferences including sector/industry constraints as well as ESG (environmental, social and governance) preferences as well as establishment of additional investment guidelines as they deem necessary.

In certain instances, the Advisor will allow for certain substitute securities in its model portfolios. Most typically, these allowances are made for securities that are transferred “in-kind” into a Client’s account and are held at the client’s direction, due to adverse tax consequences to sell and/or due to fund line-up limitations. The Advisor may retain other types of investments from the Client’s legacy portfolio due to fit with the overall portfolio strategy, tax-related reasons, or other reasons as identified between the Advisor and the Client.

Mutual Funds – WCM seeks to select mutual fund share classes on a fund-by-fund basis and seeks to select the most appropriate share class for its model portfolios and clients. Generally, and subject to availability, WCM will select the share class with the lowest expense ratio, which means that clients will typically pay transaction fees, but the fund does not have any associated service fees or Rule 12b-1 fees. However, WCM, in certain instances, may select a share class with a higher expense ratio where it believes that this share class is most appropriate. WCM is under no obligation to request waivers of investment minimums contained in prospectuses for mutual funds, but may determine to do so. In addition, due to specific custodial, account or mutual fund company constraints, there may be situations where a specific share class is not consistently available and all or some clients may be invested in a replacement share class that WCM determines is appropriate.

Exchange Traded Funds – Similarly, WCM selects ETFs on a fund-by-fund basis. Key decision criteria include targeted asset class exposure, expense ratios, track record, ticket charges at the respective custodians, assets under management and liquidity analysis.

Alternative Investments – As noted above, certain models may include the use of alternative investments when deemed appropriate and in the Client’s best interest. Investing directly in hedge funds, private equity, and/or real estate funds can be difficult for many individuals given due diligence requirements, portfolio construction complexity, large minimum investments which limit an individual’s ability to diversify his/her investments, restrictive liquidity terms, and other access limitations. To help offset these potential barriers to entry into these types of investment opportunities, WCM engages with alternative investment platforms to: (i) provide due diligence resources and services; (ii) facilitate access to managers at lower minimums; and (iii) structure multi-manager private investment solutions that allow WCM qualified clients to access relatively diversified and carefully constructed pools of institutional-quality alternative investments, including hedge funds and private equity and real asset funds, managed by unaffiliated investment advisers. WCM structures these opportunities by leveraging third-party platform resources (investment research, risk management, legal and operational due diligence) to supplement its in-house resources.

Through these third-party platforms, WCM can offer single strategy and multi-strategy investments in a private fund construct, a private fund-of-funds construct, or a custom private multi-strategy portfolio (e.g.: arbitrage; credit; equity long/short; global macro; event driven; private equity; and real estate) using private limited liability companies or limited partnerships that are exempt from registration under federal securities regulations, including the Investment Company Act of 1940 (the “Investment Company Act”) and the Securities Act of 1933 (the “Securities Act”).

Investment in these alternative investments is limited to persons who are “accredited investors” as defined under the Securities Act and, depending on the fund, “qualified purchasers” as defined in the Investment

Company Act. Clients should refer to the private placement memoranda and class supplement documents, as well as the underlying funds' private placement memoranda, for a more complete discussion of these investments.

WCM's investment approach is primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. WCM will construct, implement and monitor the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance agreed to by the Client. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor. WCM evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. WCM may recommend, on occasion, redistributing investment allocations to diversify the portfolio. WCM may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, overweighting of the position[s] in the portfolio, change in risk tolerance of Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client's risk tolerance.

At no time will WCM accept or maintain custody of a Client's funds or securities, except for the limited authority as outlined in Item 15 – Custody. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the terms of the investment advisory agreement. For additional information, please see Item 12 – Brokerage Practices.

Use of Independent Managers – WCM believes that certain Clients may benefit from individual stock and fixed income portfolio management services and strategies. These strategies would assist Clients in meeting their market exposure, risk management, tax management and return objectives in a cost-effective manner using systematic strategies. In such instances, WCM will recommend that Clients utilize one or more unaffiliated investment managers or investment platforms (collectively “Independent Managers”) for all or a portion of a Client's investment portfolio, based on the Client's needs and objectives. The Client may be required to authorize and enter into an investment management agreement with the Independent Manager[s] that defines the terms in which the Independent Manager[s] will provide its services. The Advisor will perform initial and ongoing oversight and due diligence over each Independent Manager to ensure the strategy remains aligned with Clients' investment objectives and overall best interests. The Advisor will also assist the Client in the development of the initial policy recommendations and managing the ongoing Client relationship. The Client, prior to entering into an agreement with an Independent Manager, will be provided with the Independent Manager's Form ADV Part 2A - Disclosure Brochure (or a brochure that makes the appropriate disclosures).

Third-Party Access Platforms – The Advisor may use third-party platforms to access, aggregate, or manage certain client accounts that are held away from the Advisor's primary custodians, such as employer-sponsored retirement plans or other externally maintained accounts. These platforms allow clients to grant the Advisor authorized access to account information and, where permitted, limited account management capabilities.

Access to such accounts is provided solely at the client's direction and subject to the permissions granted by the client through the third-party platform. Recommendations to have assets managed through a third-party platform pose a conflict between the interests of the Advisor and the interests of the Client. Assets managed through a third-party platform increases the level of investment assets with the Advisor, as it would increase the amount of advisory fees paid to the Advisor. Clients are not obligated to have the Advisor manage held-away assets by the Advisor.

Gold and Silver Bullion Platform – Certain Advisory Persons of WCM may advise clients regarding physical gold and silver bullion investments in accounts managed through NeptuneGBX, an unaffiliated third-party platform administered by Neptune Global Holdings, LLC. This platform provides the Advisor with the ability to provide discretionary investment management over precious metal investments, which are vaulted and insured in an exchange approved depository and titled in the investor’s name. Please see Item 12 for more information regarding the Custodians who maintain custody over these assets. The Client will be charged a platform fee in addition to the Advisor’s standard Investment Management fee on these assets. Please see Item 5 for more details regarding fees.

Investment Strategist / Model Management Services - WCM also serves financial intermediaries (the “Intermediary[ies]”) and their end clients (the “End Client[s]”), whereby WCM provides investment models through a contractual engagement with the Intermediary[ies]. The Intermediary[ies] establishes and maintains the relationship with its End Clients and retains the sole responsibility for suitability and overall management of the End Client relationship. WCM will not establish a contractual relationship directly with the End Client[s], but may accept, at its sole discretion, restrictions placed on its investment strategist services by the Intermediary[ies]. WCM’s investment strategist services may include strategic asset allocation models, tactical asset allocation models, absolute-return oriented models as well a multi-manager, multi-product and/or multi-strategy models for individual asset classes and/or for the total portfolio asset allocation.

Investment models may be customized and offered for use in accounts with varying tax treatment, account size and complexity. WCM will have the authority to make recommendations and manage the investment models, which each Intermediary, shall act upon in their sole discretion with respect to each End Client account pursuant to an advisory agreement between the End Client and the Intermediary.

Retirement Plan Advisory Services

WCM provides advisory services to retirement plans (each a “Plan”) and the company sponsor (the “Plan Sponsor”). The Advisor’s retirement plan advisory services are designed to assist the Plan Sponsor in meeting its fiduciary obligations to the Plan. Each engagement is customized to the needs of the Plan and Plan Sponsor. Services may include:

- Development and Monitoring of an Investment Policy Statement (“IPS”) for the Plan Sponsor.
- Discretionary selection or non-discretionary recommendations of Plan Participant investment options and design of efficient portfolios (WCM 401(k) portfolios) across the risk/return spectrum.
- A phone-in service to answer Plan Participant questions about Plan investment options and related plan information including the offer to any Plan Participant to create a personalized Wealthcare Plan and, if approved by the Plan Participant, to periodically track and report on the status of the Plan and revise it as requested by the Plan Participant or to make new Plan recommendations for the Plan Participant to consider. For some Plan Sponsors, in-person Plan Participant retirement investment planning educational meetings may be provided.
- Design and delivery of a self-scoring risk tolerance and time horizon questionnaire for use by Plan Participants mapped to the WCM 401(k) portfolio selections for optional use by Plan Participants.
- Periodic rebalancing when appropriate of any WCM 401k Portfolios selected as investment options by Plan Participants.

Certain of these services are provided by WCM serving in the capacity as a fiduciary under the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In accordance with ERISA Section 408(b)(2), the Plan Sponsor is provided with a written description of WCM’s fiduciary status, the specific services to be rendered and all direct and indirect compensation the Advisor reasonably expects under the engagement. Additionally, plan participants may choose to engage the Advisor for individual investment management services, as described above.

Currently, WCM works with Employee Fiduciary Corporation of Mobile, Alabama as the preferred provider of third-party administrative and related services to 401(k) Plans and Plan Participants. WCM is not financially affiliated with Employee Fiduciary Corporation. WCM does not receive any fees from Employee Fiduciary.

C. CLIENT ACCOUNT MANAGEMENT

Prior to engaging WCM to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – WCM, in connection with the Client, will develop a strategy that seeks to achieve the Client’s goals and objectives.
- Asset Allocation – WCM will develop a strategic asset allocation that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Portfolio Construction – WCM will develop a portfolio for the Client that is intended to meet the stated goals and objectives of the Client.
- Investment Management and Supervision – WCM will provide investment management and ongoing oversight of the Client’s investment portfolio.

D. WRAP FEE PROGRAM

WCM does not sponsor a wrap fee program in connection with their investment management services. However, WCM may serve as portfolio manager to a third-party advisor’s (“TPA’s”) wrap fee program. A TPA’s wrap fee program is inclusive of trade commissions, other custody costs and both WCM’s advisory fee and the Program Sponsor’s advisory fee.

A complete description of these programs and related fees, charges, when due and termination procedures are described in the respective TPAs disclosure brochures, which Clients receive at or prior to the engagement with the TPA.

E. ASSETS UNDER MANAGEMENT

As of December 31, 2025, WCM manages \$3,928,651,410 in Client assets, \$3,891,788,368 of which is on a discretionary basis and \$36,863,042 on a non-discretionary basis. Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

A. FEES FOR ADVISORY SERVICES

Wealth Management/Investment Management Services (“Management Services”)

Management Service fees (“Management Fees”) are generally paid quarterly, in advance of each calendar quarter, pursuant to the terms of the Management Services agreement (“management agreement”). Management fees are based on the market value of assets under management at the end of the prior quarter. Management fees are at an annual rate of up to 1.85% based on several factors including the types of investments, size of the Client relationship, reporting requirements, portfolio restrictions and other factors. Fees may be negotiable at the sole discretion of the Advisor. In the event of the use of alternative investments, there is a possibility that the management fee rate of 1.85% may be exceeded.

The management fee in the first quarter of service is prorated from the inception date of the account[s] to the end of the first quarter. Fees may be negotiable at the sole discretion of the Advisor. The Client’s fees will take into consideration the aggregate assets under management with Advisor. All securities held in accounts managed by WCM will be independently valued by the Custodian. WCM will conduct periodic reviews of the Custodian’s valuations to ensure accurate billing.

The fees WCM retains are exclusive of, and in addition to any applicable securities transaction and custody fees, and other related costs and expenses, which may be incurred by the Client. However, WCM shall not receive any portion of these commissions, fees, and costs.

Gold and Silver Bullion Platform – Assets held in taxable accounts through the NeptuneGBX platform will be charged an annual fee of 0.30% by Neptune Holdings Group, LLC, generally paid quarterly in advance of each calendar quarter pursuant to the terms of the management agreement. Assets held in non-taxable accounts will instead be charged a flat \$375 per year rather than an asset-based fee. WCM does not receive any portion of this platform fee.

Use of Independent Managers - As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio utilizing one or more Independent Managers. To eliminate any conflict of interest, the Advisor does not earn any compensation from an Independent Manager. The Advisor will only earn its investment advisory fee as described above. Independent Managers will not typically offer any fee discounts, but may have a breakpoint schedule which will reduce the fee with an increased level of assets placed under management with an Independent Manager. The terms of such fee arrangements are included in the Independent Manager's disclosure brochure and applicable contract[s] with the Independent Manager. The total blended fee, including the Advisor's fee and the Independent Manager's fee will not exceed 2.00% annually. WCM does not impose a minimum relationship size, however, the Advisor may impose a minimum annual fee, which can be waived at the sole discretion of the Advisor. In the event that a client utilizes an outside investment advisor for alternative investments, the blended fee may potentially exceed 2.00% annually

For assets managed through a third-party platform, the Client is not charged any additional platform fees. The Advisor bears the cost of the platform in order to service these Client assets. Advisory fees apply to assets accessed and managed through the platform as part of the Client's assets under management, as disclosed above.

Investment Strategist / Model Management Services - For investment strategist/model management services, WCM will charge a management fee of up to 0.25% per annum based upon the assets under management in each End Client account.

Retirement Plan Advisory Services

Fees for retirement plan advisory services are charged an annual asset-based fee of up to 0.65%. Retirement plan advisory fees are based on the market value of assets under management at the end of the prior calendar quarter. Fees may be negotiable depending on the size and complexity of the Plan and the services to be provided.

Financial Planning Services

Project-based financial planning fees are on an hourly or fixed fee basis. Hourly fees are at a rate ranging from \$150 to \$400 per hour. Fixed fee engagements are offered based on the expected effort and duration at the Advisor's hourly rate. An estimate for total hours and/or costs will be provided to the Client in advance of engaging for these services. Ongoing financial planning fees range up to \$15,000 which is invoiced in advance of each quarter. Fees may be negotiable depending on the nature and complexity of each Client's circumstances and the experience of the personnel providing services. Clients may have their financial planning fee included with the overall investment management fee as described above.

B. FEE BILLING

Management Services

Generally, management fees are calculated by the Advisor or its delegate and deducted from the Client's account[s]. The Advisor or its delegate shall send an invoice to the Custodian to automatically deduct the

management fee from the Client's account[s] for each quarter and pay the management fee[s] to the Advisor. The amount due is calculated by applying the quarterly rate (annual rate prorated for number of days in the upcoming quarter) to the total assets under management with WCM at the end of the prior quarter. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's quarterly statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting the Custodian to pay WCM by direct deduction from their account[s] held by the Custodian as part of the management agreement and separate account forms provided by the Custodian.

Gold and Silver Bullion Platform – Fees for assets on the NeptuneGBX platform will be billed to a separate account as indicated by the Client, pursuant to the terms of the management agreement and separate account forms provided by NeptuneGBX.

Use of Independent Managers - For Client accounts implemented through an Independent Manager, the Client's overall fees may include WCM's investment advisory fee (as noted above) plus investment management fees and/or platform fees charged by the Independent Manager[s], as applicable. In certain instances, the Independent Manager or the Advisor may assume responsibility for calculating the Client's fees and deduct all fees from the Client's account[s].

Retirement Plan Advisory Services

Retirement plan advisory fees may be directly invoiced to the Plan Sponsor or deducted from the assets of the Plan, depending on the terms of the retirement plan advisory agreement.

Financial Planning Services

Project-based financial planning fees may be invoiced up to fifty percent (50%) upon execution of the financial planning agreement, with the balance due upon receipt of the agreed upon deliverable[s]. Ongoing financial planning fees are invoiced quarterly, in advance of each quarter. Clients may also provide written authorization permitting the fees to be paid directly from Client accounts

C. OTHER FEES AND EXPENSES

Clients may incur certain fees or charges imposed by third parties, other than WCM, in connection with investments made on behalf of the Client's account[s]. The Client is responsible for all securities execution and custody fees charged by the Custodian and executing broker-dealer. Certain of the Advisor's recommended custodians do not charge securities transaction fees for ETF and equity trades in Client accounts, but do charge for mutual funds and other types of investments. The fees charged by WCM are separate and distinct from these custody and execution fees.

In addition, all fees paid to WCM for investment advisory services are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in these products directly, without the services of WCM, but would not receive the services provided by WCM which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by WCM to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. ADVANCE PAYMENT OF FEES AND TERMINATION

Management Services

WCM is generally compensated for its services in advance of the quarter in which management services are rendered. Either party may terminate the management agreement with WCM, at any time, by providing

advance written notice to the other party. Upon termination, the Advisor will refund any unearned, prepaid management fees from the effective date of termination to the end of the quarter. The Client's management agreement with the Advisor is non-transferable without the Client's prior consent.

Gold and Silver Bullion Platform – In the event of the termination of the management agreement, in addition to the refund of any pre-paid, unearned advisory fees charged by WCM described above, the Client will have the option to select a new Advisor for assets held on the NeptuneGBX Platform, maintain the assets in the account without an Advisor, or liquidate the assets. However, the fee for access to the NeptuneGBX platform is non-refundable, and will not be reimbursed upon termination of the management agreement with the Advisor.

Use of Independent Managers - In the event that the Advisor has determined that an Independent Manager is no longer in the Client's best or a Client should wish to terminate their relationship with the Independent Manager, the terms for termination will be set forth in the respective agreements between the Client or the Advisor and the Independent Manager. WCM will assist the Client with the termination and transition as appropriate.

Retirement Plan Advisory Services

WCM is generally compensated for its services in advance of the quarter in which retirement plan advisory services are rendered. Either party may terminate the retirement plan advisory agreement, at any time, by providing advance written notice to the other party. Upon termination, the Advisor will refund any unearned, prepaid investment advisory fees from the effective date of termination to the end of the quarter. The Client's retirement plan advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Financial Planning Services

WCM may be partially compensated for its financial planning services at the start of the engagement. Either party may terminate the financial planning agreement, at any time, by providing advance written notice to the other party. Upon termination, the Client shall be billed for actual hours logged on the planning project times the agreed upon hourly rate or the percentage completion for a fixed fee engagement. Any unearned, prepaid fees will be promptly refunded. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

E. COMPENSATION FOR SALE OF SECURITIES

Insurance Agency Affiliation

Certain Advisory Persons are also licensed as independent insurance professionals. These persons will earn commission-based compensation for selling insurance products, including insurance products they sell to Clients. Insurance commissions earned by these persons are separate and in addition to advisory fees. This practice presents a conflict of interest because Advisory Persons who are also insurance agents have an incentive to recommend insurance products to Clients for the purpose of generating commissions rather than solely based on a Client's needs. However, to mitigate this conflict, Clients always have the right to choose whether or not to purchase insurance products through any person affiliated with WCM. Please see Item 10 – Other Financial Industry Activities and Affiliations.

Item 6 – Performance-Based Fees and Side-by-Side Management

WCM does not charge performance-based fees for its investment advisory services. The fees charged by WCM are as described in Item 5 above and are not based upon the capital appreciation of the funds or securities held by any Client. WCM does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

WCM provides investment advisory, portfolio management and related services to individuals, high net worth individuals, trusts, estates, retirement plans, business entities, including other investment advisors, charitable institutions, endowments and foundations. The amount of each type of Client is available on the Advisor's Form ADV Part 1A. These amounts may change over time and are updated at least annually by the Advisor. Although WCM generally does not impose a minimum relationship size, the Advisor does impose a minimum fee of \$500 which can be waived at the sole discretion of the Advisor. Additionally, certain Independent Managers may also impose a minimum fee.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

The investment philosophy of WCM is based on the fundamental premise that the capital markets are continuously uncertain, and that the Advisor's job as managers of wealth is to manage those things which the Advisor, or its Clients, can control over a Client's lifetime or other relevant time period (for institutions). In accepting the notion that the capital markets are always uncertain, one of the Advisor's primary tasks is to control the amount of capital market uncertainty that is prudent to accept for each Client's financial circumstance, and the effect of that uncertainty on the funding status of all of a Client's unique financial needs and goals. Numerous studies, historical data and common sense, tell us that the primary driver of uncertainty is the amount of a portfolio that is allocated to riskier assets, like equities. This key decision—how much of a portfolio is prudent to allocate to the risk of the equity markets—should not be taken lightly and should be based on the premise that needless risk should be avoided.

WCM's Investment Policy Committee (the "Committee") is responsible for the selection of securities and design of portfolios on behalf of its Clients' accounts. The Committee, which is comprised of Officers of WCM, confers regarding selection of securities for WCM's Model Portfolios as well as any other investments managed by WCM. The Committee may also utilize the services of an investment consultant who is experienced in investment strategy, financial modeling and risk management. Other professional staff supplies supporting research information to the Committee regarding the ETFs or mutual funds – such as liquidity, fund expenses, tracking error against the target asset class index, fund managers and other factors. On a day-to-day basis, specific Client portfolio trading decisions are delegated to the officers who oversee the Advisor's Portfolio Trading area. Portfolio Trading takes action on Client accounts based on general account guidelines for rebalancing or other Client requests (e.g., the need for cash by a Client or the infusion of new Client household assets from a Client) or whenever a revision to a Client's target WCM portfolio is required based on a new Investment Policy Ticket.

The most commonly used WCM Strategies require only a few ETFs for a low cost, well diversified efficient portfolio. Those three ETFs in turn own approximately 3,000 to 5,500 underlying equity securities and 15 – 20 U.S. government treasury securities. For benefit plan advisory services, indexed mutual funds may be used in lieu of ETFs. On a less frequent basis, the Advisor may offer advice on mutual funds, securities traded over-the-counter, corporate debt securities, variable annuities, municipal securities and individual foreign and domestic equities.

A. METHODS OF ANALYSIS

WCM employs an evidence-based approach to developing investment strategies for clients and a behavioral economics approach to make strategies available to clients. There are many plausible allocations and strategies to achieve necessary long-term returns for financial plan success. The key is to match a plausible strategy with client beliefs and preferences so that they are more likely to commit to a strategy long-term, rather than be influenced to market vicissitudes to exit a strategy or allocation when it comes under short-term pressure. The Advisor utilizes an investment choice framework to match plausible long-term strategies to client preferences.

For active strategies, the evidence-based approach utilizes proprietary quantitative metrics, including the Wealthcare Skill Index and break-even information ratios, to measure a manager's skill, and potential alpha after fees. The quantitative measures provide input to the qualitative analysis to finalize manager selection decisions. The Advisor will allocate to selected managers using quantitative portfolio construction techniques to build portfolios that achieve a client's target risk allocation and to capture manager skill. Where the Advisor dynamically manages allocations, long-term fundamental valuation analysis is used to assess longer-term expected returns and various risk measures, including the Growth Conditions Index (GCONIX) to adjust dynamic portfolios to maximize expected compensation for bearing risk.

For index-tracking (passive) strategies, the Advisor will focus on minimizing costs, both manager fees and transactions costs, while maintaining appropriate liquidity, to achieve the target risk and asset allocation for financial plan success.

To build and implement the investment approach described above, the Advisor utilizes several forms of analysis including fundamental, technical, and behavioral. Research and analysis from WCM are derived from numerous sources, including databases (financial, economic, manager, market), primary and secondary research. Secondary research includes information derived from financial media, third-party researchers, internet sources, and a review of the activities of manager, ETF and mutual company activities, including reports, prospectuses, press releases and research prepared by others.

Fundamental Analysis

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria consist of indicators that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a fair valuation. While this type of analysis helps in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Fundamental analysis also includes Cyclical Analysis. Cyclical analysis involves the analysis of economic and market cycles in a way that adds insight into fair valuation and risk conditions given the market cycle.

Technical Analysis

Technical analysis involves the analysis of past market prices and may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of a company, market, or economy. The Advisor uses technical analysis as a supportive of fundamental analysis. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that WCM will be able to accurately predict such a reoccurrence. As such, it is not used on a stand-alone basis, but as a supplement to fundamental analysis.

Technical analysis includes Charting Analysis. Charting analysis utilizes various market indicators as investment selection criteria. These criteria are generally price trends that may indicate movement in the markets. Assets are deemed suitable if they meet certain criteria to indicate that they can be expected to rise in price. Assets meeting the investment criteria utilized in the technical and charting analysis may lose value and may have negative investment performance. For dynamic strategies, the Advisor monitors these market indicators to determine if adjustments to strategic allocations are appropriate.

Behavioral Analysis

Behavioral economics involves an examination of conventional economics as well as behavioral and cognitive psychological factors. Behavioral economics seeks to combine a qualitative and quantitative approach to provide explanations for why individuals may, at times, make irrational financial decision, when viewed from conventional economic analysis. Where conventional financial theories have failed to explain certain patterns, the behavioral finance methodology investigates the underlying reasons and biases that cause some people to behave against their best interests. The risks relating to behavior economics are that it relies on spotting trends in human behavior that may not predict future trends.

The Advisor uses behavioral economics principles in two ways:

1. To analyze crowd behavior and its influence on market prices. WCM uses technical analysis described above to assess the group behavior of market participants and its impact on markets.
2. To manage behavioral risk of individual clients through the investment choice framework described above.

As noted above, WCM generally employs long-term investment strategies for its Clients, as consistent with their financial goals and preferences. WCM will typically hold all or a portion of a security for more than a year, but may hold for shorter periods for the purpose of rebalancing a portfolio or meeting the cash needs of Clients. At times, WCM may also buy and sell positions that are more short-term in nature, depending on the goals of the Client and/or the fundamentals

B. RISK OF LOSS

Risk is the measurement of the degree of unpredictability of a given portfolio's return in any given period. Risk includes the possibility of losing some or all of your original investment. For its Clients, WCM calculates 95th percentile downside risk. This means for any given 12-month period, only 1 out of 20 periods would have a negative return in excess of the calculated 95th percentile downside risk statistic using 1,000 simulations. Even the most conservative investment strategy is subject to risk. Market risk, also known as systematic risk, is the risk inherent to the entire market or an entire market segment. For example, interest rates, recession, natural disasters and wars all represent sources of nonsystematic market risk that cannot be avoided through market diversification. WCM cannot guarantee a Client will, in all circumstances of changing personal financial goals and market conditions, be able to remain in a Client's Wealthcare Plan's Comfort Zone®, as that term is illustrated and described in this disclosure document.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with certain components of the Advisor's investment approach:

Market Risks

The value of a Client's holdings may fluctuate in response to events specific to companies or markets, as well as economic, political, or social events in the U.S. and abroad. This risk is linked to the performance of the overall financial markets.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Mutual Fund Risks

The performance of mutual funds is subject to market risk, including the possible loss of principal. The price of the mutual funds will fluctuate with the value of the underlying securities that make up the funds. The price of a mutual fund is typically set daily therefore a mutual fund purchased at one point in the day will typically have the same price as a mutual fund purchased later that same day.

Bond Risks

Bonds are subject to specific risks, including the following: (1) interest rate risks, (i.e. the risk that bond prices will fall if interest rates rise, and vice versa, the risk depends on two things; the bond's time to maturity, and the coupon rate of the bond. (2) reinvestment risk, (i.e. the risk that any profit gained must be reinvested at a lower rate than was previously being earned), (3) inflation risk, (i.e. the risk that the cost of living and inflation increase at a rate that exceeds the income investment thereby decreasing the investor's rate of return), (4) credit default risk, (i.e. the risk associated with purchasing a debt instrument which includes the possibility of the company defaulting on its repayment obligation), (5) rating downgrades, (i.e. the risk associated with a rating agency's downgrade of the company's rating which impacts the investor's confidence in the company's ability to repay its debt) and (6) Liquidity Risks, (i.e. the risk that a bond may not be sold as quickly as there is no readily available market for the bond).

Alternative Investments (Limited Partnerships)

The performance of alternative investments (limited partnerships) can be volatile and may have limited liquidity. An investor could lose all or a portion of their investment. Such investments often have concentrated positions and investments that may carry higher risks. Client should only have a portion of their assets in these investments.

Gold and Silver Bullion Platform Risk

While physical gold investments through platforms such as NeptuneGBX are held in insured, exchange-approved depositories and titled in the investor's name, typically under the custody of Fiduciary Trust International or NeptuneGBX (please see Item 12 for more details), they still carry unique risks. These include limited liquidity, potential premiums or discounts relative to market pricing, platform dependency for transaction execution, and differences in tax treatment and transaction costs compared to more traditional vehicles like gold ETFs. Investors should understand that while custody risk may be mitigated, physical asset-based platforms can still involve material risk of loss due to market volatility, platform-specific limitations, or delays in liquidation.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

Advisors are required to disclose all material facts regarding any legal or disciplinary events that would be material to a prospective client's evaluation of WCM or the integrity of WCM's management. WCM values the trust Clients place in the Advisor. The Advisor encourages Clients to perform the requisite due diligence on any advisor or service provider that the Client engages. The backgrounds of the Advisor and its Advisory Persons are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with the Advisor's firm name or CRD# 111119.

Item 10 – Other Financial Industry Activities and Affiliations

Wealthcare Advisory Partners LLC (“WCAP”)

The Advisor is affiliated, through common control, with WCAP, a registered investment advisor with the SEC. WCAP selects WCM to act as sub-advisor for the provision of advisory services. In such instances, WCM provides financial planning, investment advisory and certain portfolio management services to WCAP. WCM also has an agreement to perform certain corporate and administrative functions for WCAP, including administering payroll for certain supervised persons of WCAP.

Additionally, certain Advisory Persons of WCM in their individual capacity are also Advisory Persons of WCAP. Advisory Persons can recommend, on a fully disclosed basis, the investment advisory services of WCAP. A conflict of interest exists to the extent that Advisory Persons recommend the services of WCAP to Clients of WCM. Clients of WCM are under no obligation to accept the recommendations to engage with WCAP for services.

Finally, as a result of this relationship, certain custodians utilized by WCAP may have access to certain confidential information (e.g., financial information, investment objectives, transactions and holdings) about WCM’s Clients who also work with WCAP Advisory Persons, even if a Client does not establish any account through these custodians. If Clients would like a copy of these custodians’ privacy policy, please contact your financial advisor.

Sammons Financial Network, LLC

The Advisor is affiliated, through common control, with Sammons Financial Network, LLC (“Sammons Financial”), a securities broker-dealer and member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). The Advisor does not share any employees or office spaces with Sammons Financial, and is considered operationally independent. Clients will not be referred to the Advisor for services from Sammons Financial, and the Advisor will not refer Clients to Sammons Financial for services.

DPL Financial Partners, LLC

DPL Financial Partners, LLC (“DPL”) is a third-party provider of a platform of insurance consultancy services to Clients with a current or future need for insurance products. DPL offers WCM a membership to its platform for a fixed annual fee and, through its licensed insurance agents who are also registered representatives of The Leaders Group, Inc. (“The Leaders Group”), an unaffiliated SEC-registered broker-dealer and FINRA member, offers WCM a variety of services relating to fee-based insurance products. These services include, among others, providing WCM with analyses of their current methodology for evaluating client insurance needs, educating and acting as a resource to members regarding insurance products generally and specific insurance products owned by their clients or that their clients are considering purchasing, and providing members access to and product marketing support regarding fee-based products that insurers have agreed to offer to Clients through DPL’s platform. For providing platform services to WCM, DPL receives service fees from the insurers that offer their fee-based products through the platform. These service fees are based on the insurance premiums received by the insurers.

DPL is licensed as an insurance producer in Kentucky and other jurisdictions where required to perform the platform services. Its representatives are also licensed as insurance producers, appointed as insurance agents of the insurers offering their products through the platform, and registered representatives of The Leaders Group.

Insurance Agency Affiliation

As mentioned in Item 5.E above, certain Advisory Persons are also licensed insurance professionals. Implementations of insurance recommendations are separate and apart from one’s role with WCM. As an

insurance professional, an Advisory Person receives customary commissions and other related revenues from the various insurance companies whose products are sold. An Advisory Person is not required to offer the products of any particular insurance company. Commissions generated by insurance sales do not offset regular advisory fees. This presents a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by Advisory Persons or the Advisor.

Use of Independent Managers

As noted in Item 4, the Advisor may implement all or a portion of a Client's investment portfolio with one or more Independent Managers. The Advisor does not receive any compensation nor does this present a material conflict of interest. The Advisor will only earn its investment advisory fee as described in Item 5.A.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

WCM has implemented a Code of Ethics (the "Code") that defines the Advisor's fiduciary commitment to each Client. This Code applies to all persons associated with WCM (herein "Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding the Advisor's duties to each Client. WCM and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of WCM Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address ethics and conflicts of interest. To request a copy of the Code, please contact the Advisor at compliance@wealthcarecapital.com.

WCM's Code provides for 1) a high ethical standard of conduct; 2) compliance with all federal securities laws; and (3) policies and procedures for the reporting of personal securities transactions by Supervised Persons on a quarterly basis as well as upon hire and annually for all WCM's Supervised Persons. The Chief Compliance Officer of WCM periodically reviews the personal trading of Supervised Persons. The Chief Compliance Officer's trades are reviewed by the President of WCM or his designee. These reviews help ensure that the personal trading of Supervised Persons comply with WCM's Code. Due to the nature of WCM's recommended portfolios, the Advisor believes it would be very unusual for any Supervised Person's personal trades in individual securities to present any ethical conflicts with any ETF or other portfolio recommendations or trades made on behalf of Client assets.

WCM does not recommend securities to Clients in which WCM or its Supervised Persons have a material financial interest. The primary securities invested in by WCM on behalf of its Clients are passive ETFs and indexed mutual funds, although portfolio management and advice on prior Client positions which may have to stay in a Client's portfolio for some time for tax or other personal Client reasons is sometimes required. WCM does not typically recommend the purchase of publicly-traded or privately-placed individual stocks, bonds, master limited partnerships, hedge funds or limited liability companies to its Clients.

WCM may periodically offer for sale or grant to its Supervised Persons common stock in the company as an employee incentive. It should be noted that some Supervised Persons are also considered Clients of WCM, but no advisory fees are associated with such an investment. WCM's Supervised Persons may be invested in the same passive ETF or indexed mutual funds as WCM Clients via their personal or 401k custodial accounts. The Advisor does not feel this presents a conflict of interest because the minimal exposure that WCM's overall ownership of these securities (Client and employee) would not have a significant impact on their pricing given the large capitalization and market liquidity of the securities recommended.

A copy of WCM's Code is available to WCM's Clients upon written request to the Compliance Officer at WCM's principal office address or by email request to compliance@wealthcarecapital.com.

Item 12 – Brokerage Practices

A. RECOMMENDATION OF CUSTODIAN[S]

WCM does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein the "Custodian") to safeguard Client assets and authorize WCM to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, WCM does not have the discretionary authority to negotiate commissions on behalf of its Clients on a trade-by-trade basis.

Where WCM does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for custody and execution services. Clients are not obligated to use the recommended Custodian and will not incur any extra fee or cost from the Advisor associated with using a custodian not recommended by WCM. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. WCM may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, its reputation and/or the location of the Custodian's offices.

WCM typically recommends that Clients establish accounts at Charles Schwab & Co., Inc. ("Schwab"), Fidelity Clearing & Custody Solutions, a related entity of Fidelity Investments, Inc. (collectively "Fidelity"), and Pershing Advisor Solutions, a subsidiary of Pershing LLC, which is a wholly-owned subsidiary of The Bank of New York Mellon Corporation (herein "Pershing"), independent and unaffiliated SEC-registered broker-dealers and members FINRA/SIPC (collectively the "Custodians"). The Custodians offer to independent investment advisors services, which include custody of securities, trade execution, clearance and settlement of transactions. The Advisor receives some benefits from the Custodians through its participation in the program. Please see the disclosure under Item 14 below.

Gold and Silver Bullion Platform – In certain circumstances, Advisory Persons of WCM may also recommend the Client establish accounts through NeptuneGBX, an unaffiliated third-party platform (please see Items 4 and 5 for more details). Assets will be custodied through either Fiduciary Trust International, LLC, a wholly owned subsidiary of Franklin Templeton, or through Neptune Global Holdings, Inc. In no circumstances will WCM accept or maintain custody over these assets.

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with the broker-dealer/custodian in exchange for research and other services. **WCM does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor may receive certain economic benefits from the Custodians. Please see Item 14 below.**

2. Brokerage Referrals - WCM does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis", where WCM will place trades within the established account[s] at the Custodian designated by the Client, unless otherwise instructed. Further, all Client accounts are traded within their respective account[s] at the Custodian. The Advisor will not engage in any principal transactions (i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). When a client directs trades with a party other than the account Custodian, WCM will not be obligated to select competitive bids on securities transactions and does not

have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian which may cause a disparity in commission charges among clients.

B. TRADE AGGREGATION

The aggregation or blocking of Client transactions allows the Advisor to execute transactions in a more timely, equitable, and efficient manner and seeks to provide, when feasible based on similar time frames of information required to make a trade decision, the same execution price for Clients at the same Custodian and/or executing broker-dealer [if different]. WCM's seeks to aggregate Client transactions where possible and when advantageous to Clients. In these instances, Clients participating in any aggregated transactions will receive an average share price at each executing broker-dealer/custodian where the transaction costs will be charged separately based upon each firm's commission schedule. When possible, the Advisor will seek to obtain lower commissions for Clients that qualify under various Custodians' promotional programs but not at the cost of unnecessary portfolio turnover and related tax consequences.

In the event transactions for WCM, its employees or principals are aggregated with Client transactions and conflicts arise, WCM will always defer to the benefit of the Client in the transaction. If aggregation is in the best interest of Clients with accounts at more than one Custodian on the same trade date, an impartial process is used to determine the order in which the Custodians are sequenced to submit aggregated orders.

Item 13 – Review of Accounts

Reconciliation of Client Accounts

All active WCM Client accounts are reconciled to their most recent month-end custodial statement before the end of the next calendar month by the portfolio operations department. The portfolio operations department is supervised by the Vice President – Director of RIA Solutions. In most cases, where WCM has established an electronic reconciliation link between the Custodian and the Advisor's portfolio accounting system, the accounts are reconciled on a daily basis. Whenever valuation information differs between the custodian's records and the Advisor's accounting system's records, the differences are investigated and resolved.

Financial Plan Review

For ongoing planning services, each Client's Advisory Person will initiate a review and update the Client's financial plan on at least an annual basis for changes in the Client's financial situation and plan objectives. Additional reviews may be initiated for several reasons including 1) due to changes in a Client's priorities, 2) upon demand by the Client, 3) whenever the Adviser considers a plan update and review is in the Client's best interest, 4) should there be a material change in circumstances for the Client or 5) should the Client's Plan fall materially outside its Comfort Zone®.

Regular Reports

Delivery of WCM quarterly reports vary by Advisory Person or Client preference. They may be delivered in person in physical or virtual Client meetings, via regular mail or via secure online or electronic delivery.

Regular reports include information on portfolio holdings, Client goals, values, and the funded Comfort Zone® status of the financial plan. Each report will contain disclosures that include an offer to the Client to request and receive WCM's most current Disclosure Brochure, which includes the Advisor's Privacy Policy. The Disclosure Brochure is also available on WCM's website. TPAs determine the frequency of delivery of WCM's quarterly status reports to that firm's Clients.

Item 14 – Client Referrals and Other Compensation

WCM may refer Clients to various unaffiliated, non-advisory professionals (e.g. attorneys, accountants, estate planners) to provide certain financial services necessary to meet the goals of its Clients. Likewise, WCM may receive non-compensated referrals of new Clients from various third-parties.

Participation in Institutional Advisor Platform - Schwab

WCM has established an institutional relationship with Schwab through its “Schwab Advisor Services” unit, a division of Schwab dedicated to serving independent advisory firms like WCM. As a registered investment advisor participating on the Schwab Advisor Services platform, WCM receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at Schwab. Services provided by Schwab Advisor Services benefit the Advisor and many, but not all services provided by Schwab will benefit Clients. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a conflict of interest since these benefits may influence the Advisor's recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Services that Benefit the Client – Schwab’s institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client’s funds and securities. Through Schwab, the Advisor may be able to access certain investments and asset classes that the Client would not be able to obtain directly or through other sources. Further, the Advisor may be able to invest in certain mutual funds and other investments without having to adhere to investment minimums that might be required if the Client were to directly access the investments and, in some cases, Schwab may waive trade ticket charges.

Services that May Indirectly Benefit the Client – Schwab provides participating advisors with access to technology, research, discounts and other services. In addition, the Advisor receives duplicate statements for Client accounts, the ability to deduct advisory fees, trading tools, and back-office support services as part of its relationship with Schwab. These services are intended to assist the Advisor in effectively managing accounts for its Clients but may not directly benefit all Clients.

Services that May Only Benefit the Advisor – Schwab also offers other services to WCM that may not benefit the Client, including: educational conferences and events, financial start-up support, consulting services and discounts for various service providers. Access to these services creates a financial incentive for the Advisor to recommend Schwab, which results in a conflict of interest. WCM believes, however, that for Clients who open Schwab account, the selection of Schwab as Custodian is in the best interests of its Clients.

Additional Benefits – On November 30, 2020 WCM has entered into a formal agreement with Schwab Advisor Services with regard to the reimbursement of Transfer of Account Exit Fees ("Exit Fees") up to a value of \$215,000, and in any event not to exceed the actual dollar amount of Exit Fees charged by WCM’s clients' former custodian(s) . To be eligible for this offer, WCM client accounts must transfer to Schwab within 12 months from the date this agreement is signed. The offered funds will be used to offset the fees charged to WCM clients' accounts by their former custodian when WCM clients transfer their accounts to Schwab. The reimbursement of Exit Fees will be deposited directly into WCM clients' accounts. Under these provisions, Schwab Advisor Services is offering WCM assistance in the amount of \$135,000 to use towards technology, marketing and research related expenses.

Participation in Institutional Advisor Platform – Fidelity, Pershing

The Advisor has established an institutional relationship with Fidelity and Pershing to assist the Advisor in managing Client account[s]. Access to the Custodian’s institutional platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at the Custodian. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits from a custodian creates a conflict of interest since these benefits may influence the Advisor’s recommendation of this custodian over one that does not furnish similar software, systems support, or services.

Additionally, the Advisor may receive the following benefits from the Custodians: receipt of duplicate Client confirmations and bundled duplicate statements; access to a trading desk that exclusively services its institutional participants; access to block trading which provides the ability to aggregate securities transactions and then allocate the appropriate shares to Client accounts; and access to an electronic communication network for Client order entry and account information.

B. COMPENSATION FOR CLIENT REFERRALS

Certain Clients may be referred to the Advisor by either an affiliated or unaffiliated party (herein "Promoter") and receive, directly or indirectly, compensation for the Client referral. In such instances, the Advisor will compensate the Promoter a fee in accordance with Rule 206(4)-1 of the Advisers Act and any corresponding state securities requirements. Any such compensation shall be paid solely from the investment advisory fees earned by the Advisor, and shall not result in any additional charge to the Client.

Item 15 – Custody

The Advisor is authorized to deduct its fees from the Client’s account[s] at the Custodian. The Client must place all assets with a “qualified custodian”. The Client is required to engage the Custodian to retain all funds and securities and direct the Advisor to utilize that Custodian for security transactions in the account[s]. The Client should review statements provided by the Custodian, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 – Brokerage Practices.

If the Client gives the Advisor authority to move money from one account to another account, the Advisor may have custody of those assets. In order to avoid additional regulatory requirements, the Custodian and the Advisor have adopted safeguards to ensure that the money movements are completed in accordance with the Client’s instructions.

Item 16 – Investment Discretion

WCM receives discretionary authority from most of its Clients at the outset of an advisory relationship to select the types of securities and model portfolios as well as the allocation of those securities in a Client’s account(s). This is documented normally via a Client’s execution of the advisory agreement between the Client and WCM. Additionally, the Client authorizes this investment discretion through the execution of a limited power of attorney (“LPOA”) or related documents required by the Custodian. The LPOA will grant WCM the authority 1) to trade securities on the Client’s behalf in the account, 2) to authorize the disbursement of WCM’s quarterly investment advisory fee and 3) to authorize WCM to instruct the Custodian to disburse a check or money electronic transfers from the Client’s custodial account to their address of record or, with additional paperwork signed by the Client, to a bank account registered in the Client’s name.

The Client can provide WCM with reasonable restrictions as to the degree of discretion WCM has in trading one or more of the Client's investment accounts or specific investment securities. Typically, the Client's financial plan determines the Client's targeted investment allocation WCM generally monitors and maintains at the combined household versus individual account level.

Item 17 – Voting Client Securities

As a matter of firm policy and practice, WCM generally does not accept proxy-voting responsibility for Clients. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

For ERISA Clients, WCM will vote proxies, except where the Plan Sponsor has requested the Advisor vote on behalf of the Plan. Under such circumstances, WCM does not have responsibility to vote proxies on behalf of the Plan.

A complete copy of WCM's proxy voting policy can be obtained by sending a request to WCM's CCO via email at compliance@wealthcarecapital.com or via telephone at (804) 644-4711.

Item 18 – Financial Information

Advisors are required in this Item to provide Clients with certain financial information or disclosures about their financial condition. WCM has no financial commitment or condition that impairs its ability to meet contractual and fiduciary commitments to Clients, and has not been the subject of a bankruptcy proceeding.

A balance sheet is not required to be provided because WCM does not serve as a custodian for Client funds or securities and does not require prepayment of fees of more than \$1,200 per Client six months or more in advance.
